## A Fylosofee for God's Laivstock The Papess ⱮⱮⱮⱮ

A statement by Bertram Eljon Holubek to help Israel in times of conflict, V.5, 11/2023

The Power and the Impotence of the old religions are what this short political text is about. In the Vatican and elsewhere they still stick to many a lore from ancient times that is much outdated. Things weren't better in ancient Greece. Evil Powers like Alexander the Cräyb, an alien, inflict upon us not only Islamic terror in Israel.

## BEHIND THE SCENES IS YOUR GOD

Responsible: Bertram Eljon and Ewa Sofia Helene Holubek, Zuelpicher St. 300, 50937 Koeln (Cologne), Deutschland, Planet Gaia, 2G12023 / 2023 a. – This Internet text with low resolution images is free for distribution. Support your local worldly tripartite God!

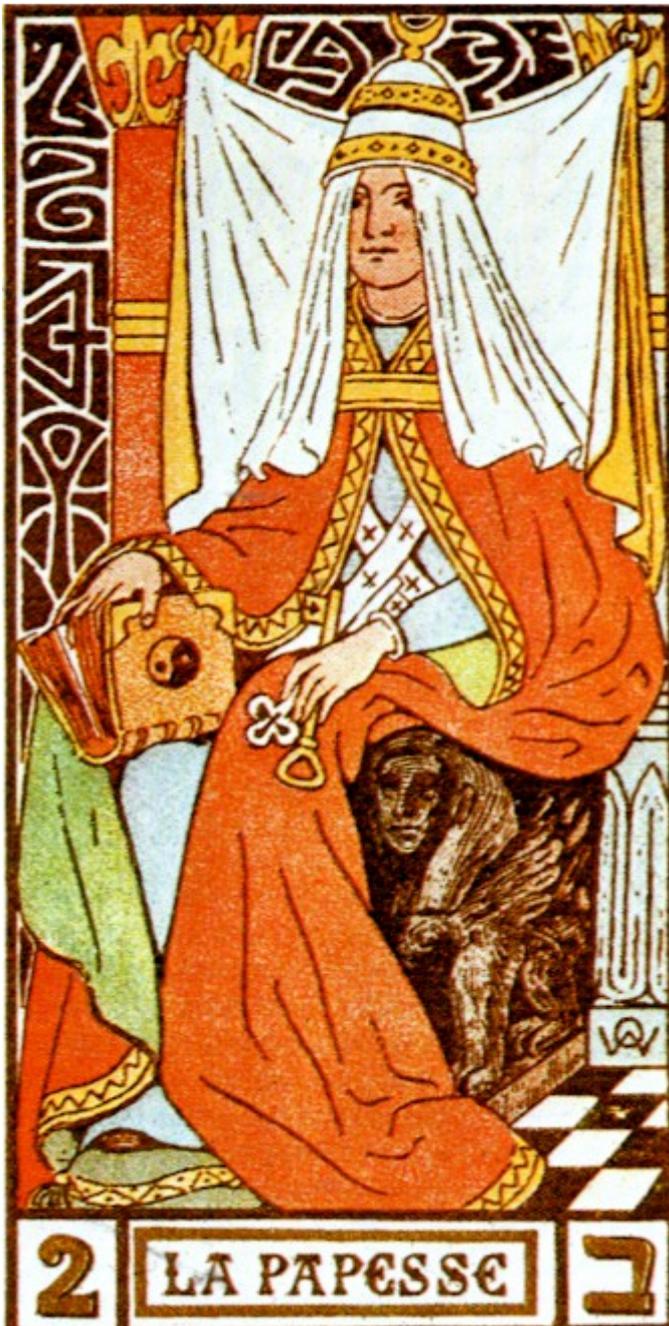

### The Important Aspects in Short

Some mortals dislike it especially if I flavour hard texts with a little cynical humour. Well, but by this way the serious topics that I have to address are a little easier digestible. A little mockery also helps against the arrogant pretensions of the Semitic religions, who still are unable to admit their massive failure. The left-winged wicked wights lean upon those erroneous ideologies as they harass against alleged Nazis and try to lead hordes of darkness into the West. With the planned end of the Semitic world religions but nears the day, when the old teachers of many a false lore get more and more into spiritual and moral troubles. So far the common religious confusion served, especially to leftists with some badness in the background, as proof that gods of justice can't possibly exist. Now these guys get more and more into spiritual and moral crises with their atheist teachings. It's because the UTR shows up exactly how cosmic evil aliens, in ancient Mycenae and also nowadays, trouble and mislead humankind. Not only the Greys from Sirius left clear signs of their evil undertakings. Not only among the Christians it was common to idolize one rather miserable man excessively, to thus push aside the real superior powers. The UTR also has the duty to make sure to people that the true saviour is just one type that suffers from grave mental problems, while he is facing super-powerful super-witches. Regarding this the world can still be glad that the good Lady World is no dumb papess. The trend but leads to a society where even in the Vatican a time for more feminism is getting near. Many find it unacceptable to think in my dimensions of racialism, but that is what God must do. If God hadn't constantly distributed better humans into all countries of the world while letting inferior people die out, then lowquo (low quality) people would still populate large areas of this world, people like ape men and the Neanderthals. Only one ensuing problem is that people of little quality render God impossible to provide for a good climate. It is well understandable that God can do better work with people of higher quality populate this planet. For the salvation of two earths of all sufferings it pays off for us all to suffer, while sturdily keep to the teachings that were recognized as correct.. May all humans of inferior quality stop reproducing and die out in peace!

### “Male gods only” also often means “male priests only”

It took men an awful lot of unplanned extra time and effort to debug this rather unplanned text. In version 4 at last, this text explains in chapter 1 the religious problem with the papess and the lacking spiritual power of the women: “Male gods only” also often means “male priests only”. The new chapters 6 and 7 were added to this text to provide up-to-date and important opinions and tenets about the question of races. Version 5 adds chapter 8 and clarifications to chapter 6.

## 1. The Religious Doomsday of Good Friday 2033 A.

The Papes is a Romanic name for the trump called High Priestess in the card game of tarot. We may also regard this card as a symbol for the weaknesses of some old world-religions. It shows us something that the popery just didn't achieve: to grant equal rights to women, like it should. This discrimination of a gender is even much worse in the lands of Islam, and also in Jewish religion such things are still common. That is the main reason for the bad behaviour of many Semites: their bad old religion. The popes in Rome, the traditional leaders of all the Christian movement, had to already give up on so many erroneous doctrines in the past. The sun doesn't move around the earth. There was no great deluge, but several ice ages occurred. Man was not created on just a day some 6,000 years ago. While people of yesteryear still cling to the strange biblical culture, the wiser and younger Europeans mostly generally realize that the dark age of the old Semitic world religions is about to end soon. The end is near when suddenly the peoples of the world start to understand that Jesus is dead – naturally – while otherworldly aliens live in the sky. A time of choice for this doomsday of religions would be the Good Friday (Care Friday) of year 2033 B., exactly 2000 years after the death of Jesus. If the Roman Catholics would surrender then, we may expect that the Moslems and the Jews too would then admit – more or less – that their commandments and traditions were not given by any god. Their divinities Yahweh and Allah only show certain similarities to the real existing Earth Goddess, Ewa Sofia Helene. It is written in the biblical Book of Apocalypse that in the final days of the Christian religion the Antichrist,

a saviour of his world, will overcome the prophets. That much is true of this old book, but much of the rest is only fantastic and allegoric mythology. The Universal Truth Religion (UTR) now makes an end with such fairy tales, teaching facts of science instead. For Israel and the Jews that should be a time of relief. In the past it was due to a cosmic politics of good or evil congeras (super-developed super-worms) that the Jews were put into the role of the counterfeit chosen people of this planet. While the Jews mislead all the world with their false religion, that raised much bitterness and hate against them. Until today Jewish science still mixes correct and false teachings and facts to a confusing and misleading mixture. The UTR plans to lighten the Jews from this burden while faming instead of blaming them. Slowly the Deutsche (Germans) are supposed to take over their roles.

## 2. About the Plans and Methods of the Higher Powers

It is obvious that this earth was not created by an almighty god. Our earth has a long troublesome history. The UTR teaches that God had to watch out for the plots and assaults of devilish aliens. Their methods made this earth become a rather messy place. The tarot trump called Justice originally symbolized a just and well ordering goddess, like the ancient Egyptian goddess of justice called Ma'at, the personification of law and order. A good world order is what we all should try to erect and need, for the safety of our earth and of our good neighbouring earth Letar too.

Many seers and believers of the past were unable to correctly identify and evaluate good or evil powers. One of them was Aleister Crowley, who was misled by the devils into evil behaviour. The name of Hor-pa-kraat, the guiding spirit of Aleister Crowley, referred to the Egyptian saviour deity Horus aka Harpocrates. He was, with Isis and Serapis a god of Alexandria. Thus appears the link to the Cräyb saviour Alexander of the planet Makeda. The planet Makeda was created by a massively tortured Cräyb goddess of the Seraphim (slaves). Her planet is enslaved by evil Greys, so-called Cherubim (warriors), who are cruel and merciless. So here are news about one of the three saviours of those bad Li planets, who is a slave of devils. That evil crab alien Alexander is 32,500 years old and 1 m 20 small. Like all the planets of these arthropoid creeps his planet was ruined by cosmic attacks of the rotten devilish worms called Greys. Traditionally most Cräybs are known as mythological creatures who have

arms above their heads. Makeda has just a few million inhabitants who are ruled by a tyrant from the Makedan Indonesia. A similar fate could also hit our earth, in case the hostile aliens would manage to bring me down. With their cosmic voices, amplified by the power of dark stars, those devilish aliens can drive me and Ewa to the edge of madness sometimes. God's troubles are the reason for recent breakouts of the conflicts who are still troubling this world today. God can't attribute a better destiny to many people who must suffer. People suffer for the sake of our salvation. Either the Greys and their slaves get the opportunity here to spoil people and raise conflicts, or they might start a sudden onslaught against our planet. We also have to share burdens with our sister planet Letar, the third planet of the star known as Sirius C. The hostile aliens try to keep the earth of Leta and Fred as their last hostage and part it from us. That is done with the help of the leading Ga-Greys of the Stars Sirius B and A, Ga-Sama and Ga-Dora. We have many cosmic helpers, good angels (Thrones) who help us to reunite with Leta's earth. Already back in time Leta was, just like Rina from the star Ursa Maior 47, our good neighbour and ally in times of suffering. Those three goddesses are also the guarantors for our survival, and for the perspective of our further good development – instead of us going under.

### 3. Divine and Cosmic Influence in Greek History and Mythology

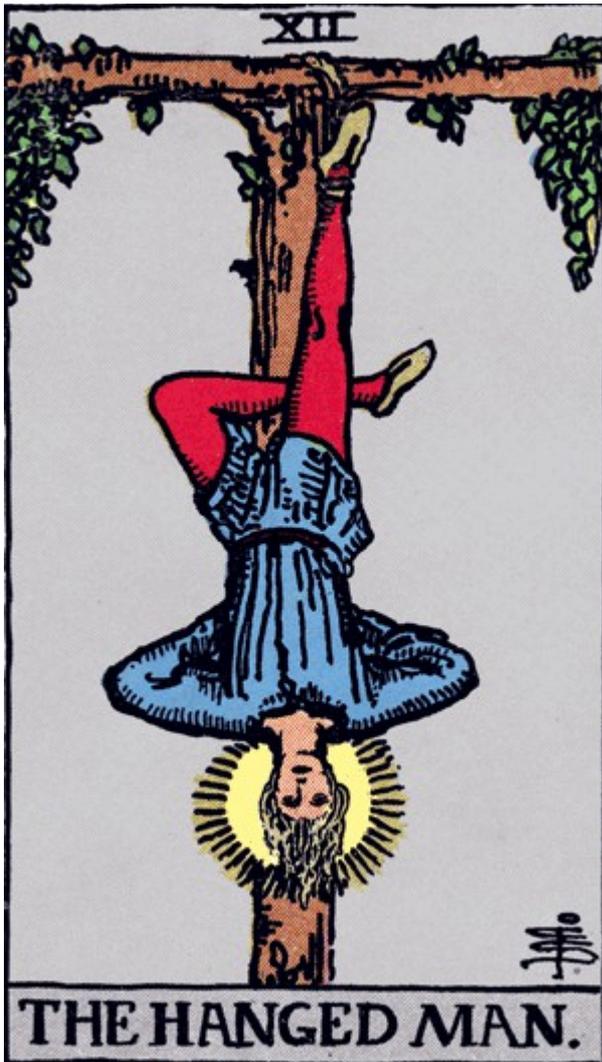

The Joker or Fool is one of the few cards of the tarot game with the value of five points. That trump may be interpreted by magicians as a symbol for the holy spirit. It is foolish but coveted by the players who secretly manipulate and rule this world. They tell me that I am a second class saviour only. The ruthless game of power that the congeras good or evil play often forces me to commit errors. Only with this background knowledge provided solely by the UTR, it may eventually be possible to solve some of the tricky riddles of our history. Archaeological finds show today that, in many or all regions of Europe in times of prehistory, religion mainly or only knew one great goddess. It was most commonly a goddess of fertility and goodness. In ancient Athens for instance one liked goddess bore the name Pandrosos. She was regarded as a good dew bringer. It seems that she was originally a daughter of the legendary first king Kekrops, who was later sainted and deified. But when Athens was hit in 1688 B. by the devastating volcano explosion of Thera (Santorin) the cult of Pandrosos was much replaced by that of Athena. In comparison to the cult of the goddess of dew, that of the – allegedly negroid – combative Athena had lesser goodness. She seemed to bring not water but the olive tree, whose fruit is fatty and of low nutritional value. The problem with many cults of a great goddess was that the goddess just seemed to be too weak. It

is noteworthy that the saint Santorin reminds of the strongest Grey of the local group: Ga-Dora. The highlight of ancient Greek history is surely the war against Troy. It is still rather difficult to figure out what happened when the Mycenaean age ended. Right now I am so heavily in mental troubles that I make rather many mistakes. That is why I rather write fiction, like my crass Harry Potter episodes, than texts about history. Doubtless armadas of unprecedented size of Greek ships sailed across the Aegean sea after the year 1250 B. to take land at the Ionian coast. The reason for this was that tribes from Northern Greece, from Middle Europe and Central Asia were troubling them at home. In Europe and Eurasia, one tribe and people after the other started to move when others from the East drove them away. In Greece some invaders mixed with the sedentary Mycenaean Greeks, while others burned and looted their fortresses and villages and drove them away. Some Greek pirates mixed with others from places as far away as Britain. These so called Sea Peoples or Philistines (which just meant Friends) later conquered large parts of the Mediterranean and the Near East. Some of the ancestors of today's Palestinians came from today's Holland and Northern Germany, where Teutonic and Germanic tribes had grown too numerous and were occasionally unhappy with the climate. The main reason for the massive wanderings of peoples but certainly were hordes of Asians, who were invading Europe and Minor Asia. They unsettled and drove away one people after the others. Several times in

history masses of Turks and Mongos (people of the East Asian major race two) became the scourges of devilish aliens to tyrannize the peoples of Europe and the Mediterranean and to destroy their cultures. God only eventually saw to it that Whites with better genes migrated into key regions like Canaan, the later Palestine. Especially the Goths were often sent out to other lands by God to try and upgrade the racial quality of the population. Among the Palestinians, who today often live peacefully in Israel (including the West Bank and the Gaza strip), there are also some descendants of invaders from Greece and Northern Europe. That is why they have a natural tendency to get racially haughty regarding the Jews with their native Oriental culture. But racially most Jews of Israel are right now of a better quality than the Palestinians and other such Arabs. That is why the Palestinians shan't win against Israel. Such a lore is seen as scandalous racism by many. But God has the better overview over this problems. Extra-European races do only exist on planets of doom. While such Racialis also exist here, we draw down bad luck from the evil cosmos upon ourselves. In the past God had to accept this, while the Greys by this way were driving our earth onto the brink of going under. It wasn't wrong that Jesus often preached about the menace of a coming doomsday. Only by way of great plights God managed to avoid a cataclysm. God allowed it if racially inferior humans developed well, while dragging this earth further into misery. Only now comes the time when God can rectify these bad developments.

So the times of war and misery in ancient Greece had a major antecedent. It started with too many Asians. That was why around the year of 1250 B. the Mycenaean castles were fortified with higher walls. It didn't help them in the end against the waves of invaders, who were called Amazons, Heraclids but most often Dorians. Doris was thence a very small landscape in remote central Greece only. It remains a big mystery why those hordes of invaders should name themselves after this place of origin. The UTR has it that the Greys Ga-Dora and Ga-Sama try to install their cults at the exact centres of nations especially in Europe. That is why in Germany the Semnonnes had a grisly ancient cult centre, as Tacitus relates, while the exact centre of the FRG of today is very near to Oberdorla, where once also was situated a major prehistoric pagan cult centre. One of the problems of the cults of the great goddess was that the Greys tried to successfully conquer her cult centres. That was done at Delphi with the help of Apollon, who hated 'dragons'. Tribes from Central Europe had already invaded into Greece around 2,000 B. These were the legendary Titans, who were known for their faith into the Earth Goddess called Gaia. The UTR identifies Gaia as the Earth Goddess (Ga-Jewa). But with the passing of time, the racial quality of these descendants of Teutonic deteriorated. The reason for this darkening of the peoples is the regional magic of lands further away from Central Europe. Originally there also were Whites (so-called Aryans) with bright hair and eyes who wandered into India at the same time. But the regional magic took away from them these genetic markers of favourable race and luck. To avoid such darkening and racial degradation, God shall let die out all humans of the species homo sapiens. Only very few people, from the middle of river Rhine mainly, shall develop into a new species. God promises to these Æsir eternal life and youth, and also many physical improvements. For instance these homo superior (Übermenschen) will have no blind spots in their eyes. All people of today (so-called Cros) should realize how badly developed they are. If the Israelis, including the Palestinians who are a part of this nation, understand that God must constantly improve the quality of humankind, and realize that they are not chosen and about to die out, then this should make them get more peaceful and cooperative. Some ancestors of the Arabs used to be tyrannical Philistines, like we know them from the Book of Judith. But lately they have no reason to remain haughty, since the better genes of their ancestors got lost in history and their racial quality is low.

#### 4. Suffering for Salvation is sadly not to avoid

The Hanged Man is a depressing trump of the tarot game. It shows a tortured man, hanged up at one of his legs. In all our history such acts of cruelty occurred. Many religions have it that devils and demons are behind such acts of cruelty. Indeed that is what the UTR confirms, who knows the names of these hostile cosmic powers. Judaism and Parsism correctly identify Sama (Samael, Asmoel, Aeshma Daeva)) as the leading demon of a local group of roughly 200. In the past God had to allow the devils to let people suffer and torture them. The way of the UTR is to make an end to this cosmic tyranny. Blessed are the nations of the West, because unlike other nations they abolished such cruelties. Nevertheless many good people must still suffer for the sake of salvation, to distract those devils.

Traces of the real story of the first conquest of Troy have survived in Greek mythology. As I see it right now, Troy VIIIb was conquered by both Greeks and Philistines after a siege of ten years in the year 1196 B. The leader of the Greeks was Neoptolemus, the son of Achilles. One famous leader of the invading hordes from Central to Minor Asia was the Amazon Penthesilea. But when king Agamemnon returned from his successful campaign he met troubles at home. That king of the Greek pirates had taken the Trojan princess Cassandra as his slave. She had been a seeress in Troy who was troubled by visions of doom. Meanwhile at Mycenae the queen Clytemnestra had mated with Aigisthos. Those two

conspired against king Agamemnon and treacherously killed him, and Cassandra and their two infant sons. Surely this was a revenge of the queen too, for the killing of princess Iphigenia as a human sacrifice. Pausanias later related the story that Agamemnon, Cassandra and others were buried in Amyklai, Sparta. Right there a local cult existed that gave Cassandra the name of Alexandra. The UTR explains that these are traces of the influence of Alexander the Cräyb messiah. He lives at a place corresponding to Macedonia in Northern Greece. The Greys tried to install Alexander the Great as a false saviour, hoping to control this cult with the help of their cosmic slave Alexander the Cräyb. The Greys make him occasionally pose as a woman too. In fact these cosmic parasites also try to transform me into a woman to better sexually exploit me.

It was not a coincidence that the excavations of Schliemann at Mycenae led to the glorious find of a golden face mask. The idea of the congeras was it to thus fame one greatest king of Mycenaean Greece. That was another attempt of many to install cults of local gods and heroes, who would replace or maybe suppress the cults of the Earth Goddess and of their future saviour. Blessed are the Jews because they were among the very few peoples who always held on to the correct lore, that none of the false heroes and saints of the past was a god, while the messiah was still to come!

## 5. Versus the Threat of Islamic Terrorism!

According to the poet Homer, the Trojan War only broke out due to a conflict over one single woman. Helena of Troy had been abducted by the Trojan prince Paris. Historical testimonies from the time of the Hittites show that this event already happened 100 years before the Trojan War. But we may well deem that the Mycenaean Greeks used this old story as a new justification for a war. From the point of view of the UTR, the reason why Helena was regarded as the most beautiful lady of the world was that she served as a model for the good Earth Goddess, who will one day bear a similar name.

The Trojan War was the last big success of the Mycenaean Greeks. Decades later, invaders mainly from Central Asia had conquered and marauded nearly all of Greece. In Athens Greeks under Theseus were teaming up and mixing with them. That was not the only time when then Europeans had gravely underestimated the sudden fury and wildness of such Asian hordes of darkness, who firstly seeped in as land-hungry and rather modest nomads, but eventually were multiplied by the evil sky for the decline of the West. Let's defend our European lands and all the West, including Israel, against Asian and Islamic tyranny! Our good Earth Goddess used to hide behind many

masks in ages past. Only now she can really dare her coming out. Believers in all the world today pray for a good climate and rain right now. She is the one who can provide this.

The World is the best and highest trump of the tarot game. It shows, in the most common version of Ryder/Waite, a beautiful white divine lady with golden hair. Indeed our gentle Earth Goddess will soon incarnate as a world leader, in about 55 years. With her beauty, her gentle manners and her magic she can refute then all the older myths who defame the Earth Goddess as a dragon or a torturing devil in hell. The world needs such an ideal woman to trust into the quality of women! By the way: The four symbolic images in the four corners of the card show the four symbols of the Goddess that are also mentioned in the Book of Apocalypse. The head of a human but means a Sauroid, like they existed on Anna's earth Terra. When the egg-shaped Betyla, the mestab of the Earth Goddess, had been completed, the four construction groups eternized themselves with these symbols upon their finalization stones.

The UTR proposes to relocate too strange Muslims and unwanted aliens to their lands of origin. It is typical for such people that they feud and war. Refugees from the Orient should best be placed in their home regions. Africa is the best place for dark Africans, who eventually may also be deported to and kept in other lands, if that is legal. It's due to their genetic inferiority, that most can't make it at home and fail elsewhere too. The UTR only can explain this: Their destinies are too much linked to planets of misery and bad luck. The big failings of leftists and liberals who welcome detrimental, burdensome types in the West is due to the fact that they don't like enough noble Western types and especially reject Germans, the truly chosen people of the good Earth Goddess and me. Even the best Whites (Caucasians) are far from being perfect, but they are generally the normal and best race and have the best development perspectives. It's the rebel instinct of the leftists that makes them open their minds for temptations and evil voices from the sky. The evil intentions of aliens like Alexander the Cräyb saviour thus become a too bad and multi-cultural policy here. Those who ignore and deny the bad consequences of bad migration into the West often know of no evil powers. Now, instead of the decline of the West, their atheist ideology falters. They would need to admit that human races major and minor do exist, something that they can't explain, since it is all too obvious that a creating spirit distributed six major races onto six continents. That bad development plan called Berk-OS made invasions and racial conflicts unavoidable. The wars that some Islamic terrorists constantly fight against Israel and all the other nations of the West force us to stand together. Sometimes these Muslims are rather calm, but the Hamas assault of 2023 should warn us that they can still plot and suddenly terrorize us with unexpected savagery. All will slowly get better if the Westerners and the Muslims stay on their sides of the borders. One risk that we face is, that bad migrants and unwanted refugees who are wrong in the West destabilize our western civilisation so gravely that God suffers a nervous breakdown. The evil Snakes of the sky traditionally use such an opportunity to ruin a planet with cosmic bombs. All good life on this earth would end then, if meteors with the size of Chicxulub would crash down here, to cause worldwide earthquakes and deluges and the eruptions of super-volcanoes. Just that is what Mohammed the prophet of Islam foresaw many times, trusting with this on the last book of the Bible (Revelation or Apocalypse). I the saviour but foresee a better future for us. God will save his earth!

Many find it unacceptable to think in such dimensions of racialism, but that is what God must do. If God hadn't constantly spread better humans to all lands and let the inferior die out, then people of low quality like the Apemen and the Neanderthals would still settle large parts of this world. Only one problem is that people of such low quality make God unable to provide a good climate. It is understandable that God can do a better job, if only people of enhanced quality populate this planet. Right now while I write this, the (Anti-)German radio station DLF plays the opera 'The Singing Devil' by Franz Schreker. Those Jews were named "Scarer" (German: *Schrecker*) due to their Moorish ugliness. That is not the only Jewish opera that seems to directly defame me, the saviour. Using miracles and corrupting texts with the help of cosmic magic, the Greys and their minions also try to make me appear as a Nazi. I am confident that the people of the future, with an increased understanding of magic, will realize that the UTR is not only the only true religion, but also the only one that teaches the world to keep to moral and humanitarian standards. When it came to revealing the truth to the world the Jews just couldn't do it. May all inferior people stop reproducing and die out in peace!

## 6. The West must face the Question of Races!

There isn't really a fitting trump for this extra chapter in the game of tarot. Well, the devil is often drawn with dark skin. In Deutschland (Germany) and elsewhere too they call him the Black Man, like in the children's game: ›Who fears the Black Man?‹ But not rarely the fantasy devil has a crass red skin colour, and thus becomes the 'Red Devil' of America. Eye catching at this fantasy devil from a French deck of tarot cards are, besides the horns, his long tipped ears. Such ears are known from the elves, who are especially well known in the regions of the Anglo-American culture. From the point of view of the UTR such funny features refer to the linked, half-way enslaved 63 worlds of the Feken. They too have types of the major races two to six, who are racially offset. The goddesses of these worlds had to allow it that such dark-skinned types evolved, even while these would develop less well and would bring more bad luck to their worlds. On the only 29 Feken worlds who were not (yet) ruined, the danger of a cosmic massive attack is maybe very high. That may especially be a problem for the world of Fe-Juda, since that goddess especially helped us to develop. Fe-Juda helped to form our false chosen people from our Jews. On her world the Jews are the truly chosen people. Rumours say that over there a false chosen people exists too, whose culture reminds of some Finno-Ugrians here. Over there maybe no man would dare to claim that the goddess of his world is a woman who chose the Jews as her chosen people, while the off-species types of the continental major races are strictly not wanted by their goddess, since the devils can better suck lifeforce from

them. For Fe-Juda, choosing a true saviour like me would be a too high risk for still a long time. The worst problem of the Racialis and also of many Whites here is symbolized by the horns of a buck, while tail and fork symbolize his supply tubes. A billy goat is a good beast that but is often regarded as especially randy, in the traditions of many peoples. Just such excessive randiness is the characteristic and worst feature of the evil cosmic powers. That is why racial often means especially sexy and leery, at least in common German (Deutsch). The more overpopulated a habitat is, the harder it is for the goddess of the world to protect good people and develop their kids. While we earthlings still develop better we are able to better ward off evil cosmic pressure. The consequence will be that the Greys and Cräybs, with their typical addiction to the drive of revenge, will plague the Feken with increased pressure. That is why the Feken commonly have a tendency to stall our development. We therefore need to distance ourselves from these too, since we only later will be able to help them. The destinies of the peoples of the Near East, from Georgia with Fe-Jora over Armenia with Fe-Nike, Syria with the miserable Fe-Sura to the Copts with the very miserable Fe-Tona, are especially linked to the Feken. That is why these cultures are more burdened. The cultural change that is due on our world might have a special negative impact on these lands. The consequence is an increased moral obligation for the Europeans to care for these lands. The EU would maybe be the best instrument to provide good government and policing for these lands, thus helping when it comes to countering the threat of terrorism.

In large numbers especially Negroes try to migrate from Africa into the lands of Europe. It is easy to realize that the false politics of asylum and migration of the EU is to blame, that is too tempting for races of minor worth. Fascists want to bring in millions of aliens especially into Deutschland (Germany). Their political objective is, just like in the time of the ancient Romans, to gain more political influence. They struggle to drive away ethnic Deutsche or to grind them down, to "mix up society" while spreading anarchy and chaos. By this way the ancient Romans once romanized and alienated several lands of Europe. Arminius the Cheruscian, that Germanic freedom hero, managed to prevent it that the Germanic of his time were hit by a fate similar to the horrible fate of the Jews during the Nazi era: a genocide. That was hardly a topic of discussion in the (too left-winged) press when in recent years the war crimes of the Romans against the Germanic passed 2000 years. The leftist wicked wights especially reject the argumentation of the UTR, that the Negroes are racially inferior. But that is easily to understand, for instance while thinking of the fact that Negroes generally die much earlier than Whites. That also explains why the Racial of other cultures were so primitive before they were contacted by the whites. The Negroes of Africa didn't even know oil lamps! With hate-filled and brutal propaganda of lies, left-winged perpetrators agitate against alleged racists, while they internally agree on the schizophrenic theory that races don't exist! Years ago a leftist to Christian group even took action to remove the word race from the *Grundgesetz*, the German makeshift constitution. The leader of that group of parliamentarians was a female Indian migrant. Such initiatives are nowadays not as easy as they used to be years ago, since the UTR renders people wiser, finally explaining to them the secret of the races. On the free and paradisaical earths of the humanoids there only exist Whites! That is the reason why it's easier for God to deal with the white race. One consequence was that Whites were the founders of all major world religions. Even the first Taoist was allegedly a migrant from Southern India called Domo. Verily the UTR is based on the spirit of goodness and truth! In 30 years I had to find many mistakes of my revelations and to admit and correct them. When it comes to important private affairs even now I get blatantly misled, which may make me appear especially deluded and incompetent. That is how I pay for my wisdom. Treacherous and vicious manoeuvres however, haughtiness and lies and aggressive harassment are typical for the devils and the people they influence. Such people are often especially burdened or weak. Not rarely they stick together with criminal types and rogues, fearing then the justice of God. Their weaknesses can be due to an addiction. It is typical that people who are possessed by the evil spirit welcome the liberalization of drugs. Not by chance tobacco is regarded as the vice of the Indians, and hashish as the drug of the Negroes from Jamaica. Some older drug freaks still demand the liberalization of hallucinogenic drugs and celebrate intoxicating cults to get into contact with so-called drug gods. Soma was regarded as the intoxication god of the Aryans, a deity who again refers to the Grey Ga-Sama. It is due to the overwhelming viciousness of the evil sky when drugs and alcohol spoil people fast. Here the UTR promotes more helpful honesty and soberness. It starts with using again the word Negro, which is still the common and scientifically correct word for such Racial of the lowest major race six. That should help to prevent that Negroes on the way to Europe can't be stopped in time and deported. The consequence is that some nations in troubles start the trade of humans or simply push back Negroes into the desert where they die miserably. Those who refuse to take notice of this share a part of the guilt. The German *Grundgesetz* attributes to God, as an organ of the constitution, also political leadership duties. God states that it's a moral duty for most Europeans to stricter regulate the migration of Arabs and Negroes into lands of Europe and North-Africa. This world cannot 'convalesce' from the German mentality, but we Deutsche can become a model for many lands when it comes to racialism. Racialism means to acknowledge races and to correctly deal with them. This starts with publishing and debating how badly certain Muslims and Racial really behave in our western lands!

## 7. In the Earthly Paradise Death will lose it's Power

The trump Death is maybe the most disliked card in the entire tarot deck. This Vintage Death version, drawn by an artist with the odd German sounding name Bi Nutz, but shows that Death also has some nicer aspects. A good life should end with not a lot of suffering but with a rosy, a decent death; that comes at the correct moment. When God is in charge death comes to artists or good workers after they finished their last works and seem ready for it. When the devils command destiny they let people die early or shamefully, or they let them grow too old and suffer a lot in the end as miserable idiots with rotting bodies in some asylum. Death comes with a clock that counts down the hours of life. So who can win against death? That is what the UTR promises, that God has the power and the will to render certain humans of the future immortal. In fact the humanoid of the free worlds of the Alliance of the Big Dipper (aka Lamp) are all immortal. It's because their local goddesses are all free and in good shape. Our Earth Goddess heeds the same plans for our world. Will she make it? That question can only be answered by the living example of an immortal saviour.

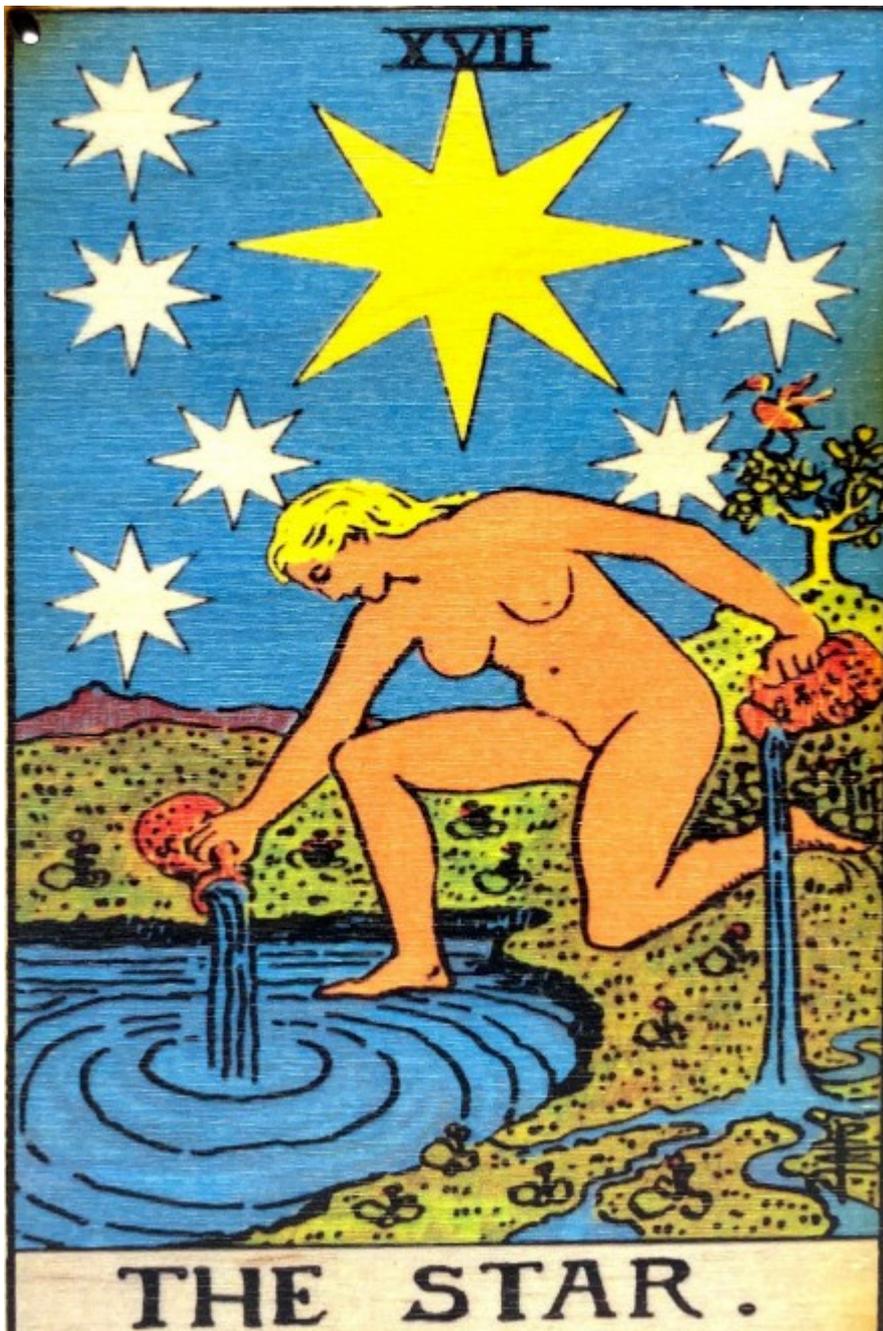

To vanquish death means to get population growth on our planet well under control. Any kid can understand that Big Mama will have more time and love for him, if she doesn't need to care for many more kids. The Earth Goddess could best care for a population of 10 to 12 million people.

God needs a better Europe! For this we may reduce the dangerously large cypher of refugees by way of deportations. Asylum seekers should be accommodated in safe locations, but that can mean to put Africans into African camps. Unwanted aliens could be immediately deported into prisons and prison camps far away, with due respect to international and local standards.

Here are the tenets of the UTR regarding the controversial topic of deportations. We did and still undertake deportations in many countries, including some who see themselves as nations where law and order rule. For instance, the USA deported especially difficult Muslims to Guantanamo. For the nations of Europe too deportations are an option. We may overcome legal difficulties. God recommends deportations in the following cases:

- 1) When migrants are just too strange and fit too little to the good Europeans.
- 2) When aliens, especially from Islamic lands, are hostile, harmful or dangerous.
- 3) When criminals from strange and rough lands find our penal system too mild.
- 4) When criminals can't be kept in custody securely and well in our lands.

## 8. One near Star makes our Destiny too

This trump shows the Star. Well, but what star does it mean? The guess of Aleister Crowley was the Venus, the brightest star on our sky. But from the point of view of the UTR, this special star can only be Leta's star with her planet Letar. There Leta will one fine day incarnate into the body of a super woman, looking rather similar to a golden blonde from our earth. This illustration shows her with two mugs. They may signify, once again, the two supply tubes that any congera has. These are leading from her first artificial heart into her body. There are seven more stars at the side of Leta's star. With the knowledge of the UTR we may easily explain this "Pleiade" as the seven stars of Ursa Maior (aka Big Dipper). Right behind these seven stars, in a distance of 121 light years, lies the star cluster of the 670 stars of the Alliance of Humanoid Earths. That is for instance why in the Finnish holy poem Kalevala the Great Cart (Big Dipper) is often especially mentioned. We also find such a Pleiade on the very old disk of the sky from Nebra, Germany. For muggle experts it isn't possible to distinguish any such Pleiade, a group of seven stars, from the original Pleiades.

Right now many people of this world are too fond of stars in general. But already in the times of the Bible some Jews warned people to beware of the woman of the night sky, commonly known as Astarte or Aphrodite Urania by the heathens. If people would imagine powers of the sky as lusty women, they would mentally contact aliens who were angling their souls to devour them. On Letar they also have a false saviour comparable to our Jesus, called Martin. That guy was at the origin of the reputation of the wizard Merlin (Welsh: Myrddin) as well as of our Saint Martin. Currently the Shiites from Iran (which means "Aryan land") are the most ardent helpers of the Hamas terrorists in their unholy war against Israel. Only the UTR can explain this strange historic feud that parts Persians and Jews. On Letar the Parses (Persians) are the false chosen people. The consequence was that some Greys and Cräybs tried and helped to especially stabilize and promote this people of the Middle East. The rise of the Prussians in Deutschland, whose name reminds of the Parses, was a side-effect of this strategy. Right now the Parses on Letar must however learn that they are not really the chosen people. It's really hard work for Ga-Leta to bring them down and to promote her chosen people, the local Welsh. She and Fred must plan to evolve some few guys from the middle region of the river Duisa only. One side effect is that right now our Iranians, who used to regard themselves as Allah's darlings, are especially jealous of the Jews.

# THE NEW WAY TO WISDOM

This is a very short common introduction into the Universal Truth Religion (UTR, V.23a 2023). With the Universal Truth Religion God debunks all other religions and lores of science. The UTR only tells the truth about all things. I teach things who are modern and must be correct, but I must counter the sufferings of two worlds by suffering and making mistakes. I Bertram Eljon Odin was called in 1993 to become the saviour, husband and advocate of the Earth Goddess. This good lady who created this earth reveals all her secrets only to me and by and by. The lore of the UTR is not in all parts based on evidence, but with the years scientific finds supported many teachings. The UTR sadly is only really suitable for young and well developed enlightened children of light with bright natural colours. The cruel Greys, cosmic she-devils, distort and spoil many people with N-rays. Greys bring all sorts of trouble. Only with God's help mortals can get strong enough to take a stand. God can best guide young well-raised Europids (Caucasians) of the German Rhineland. Only few have good development perspectives. Few shall evolve after 150 years to ageless Æsir: great and gentle demigods who'll be fair, beautiful and wise, who can read minds and do miracles. God but also likes and supports many ordinary homo sapiens, who shall slowly die out in peace. This Earth has a Goddess, the white 90 m congera (lentworm, leviathan, snake) Ewa. She lives in the house of God (Betyle), 300 km below of Eden (Aden) at the heart of the earth that she created with patient, hard, sly work. I'm God the Father, she's Mother Earth. The minds of all humankind associate to form the Divine Spirit. Over 5500 free and paradisaical earths of Humanoids (Angels), Marsupial Rats, Ducks, Frogs, Meerkats etc protect us and help us to develop. Ewa's Betyle was created near Anna's former star Mirá 1.7 GY ago and travelled to settle this earth. Letar (Sirius C) of Ga-Leta and Fred Willms, and Sesam (Big Dipper 47) of Ga-Rina and Jonathan Eckart are our best neighbours. We are rare planets in trouble, like the 6 of the Sauroids, the 53 Marsupial Bears or the 63 Feken. On Letar Welsh are the chosen people; but the Aryan Parses are, like our Jews, a false chosen people linked to a primitive earth of the Feken (Hogs). That is why Jewish religion with it's god Yahweh (Ga-Jewa) and Jewish science often mislead. The rotten Greys ruined 99% of this galaxy's 1,050,000 earths with falling stars. Most of these harbour dwarfish Arthropoids: Berks (Spiders), 22,000 Cräybs (Crabs) etc. Grey evil wights are slaves of the Greys, who failed to create own earths. The Berk-OS has it that earths are populated with six major races, of whom five are unlucky Racial. Especially the Arthropoids-Greys send us N-rays, modulated pulsar rays who build magnetic fields and appear as hypernovas, whistler waves or atmospheric mini-comets. Greys suck lifeforce (mana, vril) with the help of intoxication, lust and laze. Congeras typically appear masked as gods, angels, devils, spirits, stars, celebrities, parents, beasts or fantasy figures. As priming, inner voices or forcing impulses of what to do congeras perceptibly interfere into our minds. They may make believers believe into nonsense and go erroneous ways. Especially wrong is the creed that the dead will once resurrect or live on as spirits. The thoughts of confused people cause many mental disturbances. The Greys pester good people but may push a few lesser people. While God could not protect well the chosen and the good, the old religions were a compromise with the Greys. God had to hide from modern thinking atheists, who are the booty of vain egoism and megalomania. Most generally all the older people are not fit for the needed mental updates. The Goddess Diet teaches how to best resist to evil. That starts with a healthy and fresh nutrition with much protein. Fresh water baptism and fitness sports in the open help to gather vril. Physical and mental troubles can be countered with work, entertainment and creativity. Sadly God's help has narrow limits when it comes to supporting, protecting and telling the truth, so help yourself and be sly. The rotten Greys right now suck too much vril from our earth that is overpopulated by 99.8%. God's strategy must be to reduce population to no more than 12 million people. Then God will have enough time and power for to evolve the homo superior, and completely rid this earth of all sufferings. In 2100 we shall erect a Holy Reich, where Ewa plans to incarnate as the perfect woman. We shall travel to the Humanoids of the Big Dipper and ward off Greys like Ga-Sama, Dora, Musa, Toma, Reta, Fe-Luka, Li-Zora. Be sure that God is on your side if you want to live a decent life. Ewa tolerates errors, grants rights and sexual liberties, but is overworked and in pains.
